

1-Year Comprehensive Implementation Program Proposal: Your Training Organization, School, or Company

The **NIMS 1-Year Implementation Program** maximizes the ability of a training program to test against NIMS competency-based standards by establishing fixed registration and testing costs. These fixed costs are based on the expectation of the training program to see an increasing number of candidates each year. This proposal will enable candidates to achieve their fullest certification potential without financial constraint.

Unlimited Registration and Testing Fees

This is a fixed price contract, with a fee of \$5,000 for one year. This fee provides:

- **1 Year of Unlimited Candidate Registrations**
A value of \$40 per new student/trainee.
- **1 Year of Unlimited Tests at all Levels for All Manufacturing/Metalworking Credentials**
A value of \$35 per Level I exam and/or \$50 per Level I or II exam.
- **Accreditation Fees**
A value of \$1500 for programs seeking first-time accreditation or to renew an existing accreditation.

The NIMS Implementation Program will be valid for a one-year period as agreed upon between NIMS and **Your Training Organization, School, or Company**. Unlimited registration and testing can begin on a date agreed upon by both parties. The initial payment will not be due until 60 days from the date of execution.

Under this proposal, accreditation fees will be included, meaning that no additional accreditation costs will be assessed during the timeframe of this proposal.

Immediate Access

NIMS will provide immediate access to the Unlimited Registration and Testing upon receipt of payment.

Limitations/Restrictions

This agreement is non-refundable.

This agreement covers all NIMS Manufacturing Credentials. It does not cover the Structured On-The-Job Training Program (OJT Trainer, OJT Senior Trainer, and Company Training Coordinator).
