

NIMS Geometric Dimensioning & Tolerancing Workshop

A sixteen-hour, instructor-led NIMS workshop covering the fundamentals and application of geometric dimensioning and tolerancing, based on ASME Y14.5-1994 and ASME Y14.5-2009.

NIMS Credentialing prints will be discussed in detail for GD&T applications, along with fundamental dimensioning rules.

NIMS training workshops are available on demand. Please contact NIMS Director of Business Development Dave Morgan (right) to schedule a program in your area.
