

NIMS 101 Workshop for Metalworking Instructors

A one day , facilitator-led workshop for metalworking instructors to:

- ⇒ Gain an understanding of NIMS National Industry Skill Standards and insight into curriculum alignment needed to meet the national standards and certificates
- ⇒ Receive a working knowledge of NIMS processes for individual credentialing and program accreditation
- ⇒ Review testing procedures and policies, with opportunity to earn one NIMS credential upon completion

*NIMS training workshops are available on demand.
Please contact NIMS to schedule a program in your area.*
